

WHEAT HEADING.

Crop Looks Well Despite Eleven Inches of Rain.

But Little Evidence of Rust Has Been Reported.

HAYING IS COMMENCED.

Strawberries Are Being Marketed in Barton County.

First Crop of Alfalfa Cut in Western Division.

The following is the weekly climate and crop report for Kansas issued today by Director T. B. Jennings, of the United States weather bureau.

Notes.—Mail facilities were such that no current reports have been received from the north half of the state west of Brown, Jackson, Shawnee and Osage counties.

GENERAL CONDITIONS.
The week has been cool; it was cold at the beginning but moderated very rapidly and was nearly normal by the close of the week. Much rain fell in the eastern counties and the weather was wet with lighter showers in the southern counties, diminishing toward the Colorado line.

EASTERN DIVISION.
Wheat generally is in good condition; it is improving in the cottonwood valley in Chase, and looks well even in the north part of Jackson where over eleven inches fell the preceding week. It is not improving in Chautauque but is ripening in Montgomery. Corn is improving in the south where it is getting dry enough to cultivate; in Bourbon a little over half of the corn ground has been planted but it is deemed too late to plant much more, nine-tenths of the corn has been planted in Jackson; in Brown there is much corn ground unplanted, and owing to winds there will be some to replant; in Coffey there is much to plant, but some of the corn ground is planted in alfalfa; in Kaffir corn and cane; in Chase it is being cultivated in the southwest part, but in Woodson some is turning yellow on account of the wet weather and weeds. Cane is making a good growth. Grass, both for pasture and for hay has made a heavy growth. Alfalfa is ready to cut and haying has begun in Woodson and the southeast part of Chase, but elsewhere it is generally too wet. Flax is looking fairly well in Coffey, Cherokee and Rice.

Corn and wheat are doing well in Woodson.

Bourbon—Farmwork has been so retarded that only a little corn has been planted; in the north part of the county alfalfa has been planted; in the south part of the county alfalfa has been planted; in the south part of the county alfalfa has been planted.

Brown—The ground is still too wet to cultivate; alfalfa has been planted; in the south part of the county alfalfa has been planted; in the south part of the county alfalfa has been planted.

Chase—Continued wet weather still prevents systematic farmwork; alfalfa has been planted; in the south part of the county alfalfa has been planted; in the south part of the county alfalfa has been planted.

Coffey—Farm work completely paralyzed during the past week; alfalfa has been planted; in the south part of the county alfalfa has been planted; in the south part of the county alfalfa has been planted.

Crawford—Too wet for farm work; alfalfa has been planted; in the south part of the county alfalfa has been planted; in the south part of the county alfalfa has been planted.

Franklin—Ground drying rapidly during the past two days; alfalfa has been planted; in the south part of the county alfalfa has been planted; in the south part of the county alfalfa has been planted.

Jackson—Week has been too wet for any farm work; alfalfa has been planted; in the south part of the county alfalfa has been planted; in the south part of the county alfalfa has been planted.

Montgomery—Cool, cloudy weather, with light rains during the first half of week retarded growth and cultivation; alfalfa has been planted; in the south part of the county alfalfa has been planted; in the south part of the county alfalfa has been planted.

Shawnee—Too wet for farm work; alfalfa has been planted; in the south part of the county alfalfa has been planted; in the south part of the county alfalfa has been planted.

Woodson—Corn is mostly yellow and plowing very slow; alfalfa has been planted; in the south part of the county alfalfa has been planted; in the south part of the county alfalfa has been planted.

MIDWEST DIVISION.
Wheat is in good condition, although it has not with some outbreaks it is coming out finely; in Barber there is some rust in spots but the wheat promises nearly a full crop; it is very promising in Stafford, is fine in Barton and Sedgewick and is in bloom in Reno. Corn is backward, but is now growing rapidly; it is being cultivated in Barber, and on the upland in Reno; bottom fields in Reno have been injured by overwatering; some of the corn is very yellow in Edwards. Oats are doing well generally and in Reno are heading. Barley is fine in the western counties; alfalfa is a good crop and is being cut for the first time; it is now in the shock in Barber. Grass is very fine. Kaffir corn and cane are doing well; alfalfa is being marketed in Barton.

Barber—Good growing week; corn making a fine start; farmers busy cultivating corn and planting alfalfa; alfalfa is being marketed in Barton.

Coffey—All crops doing well; alfalfa coming out finely; corn making rapid growth; alfalfa being marketed in Coffey; alfalfa is being marketed in Coffey.

Edwards—Corn and cane very yellow; alfalfa is being marketed in Edwards; alfalfa is being marketed in Edwards.

Kansas—Wheat and alfalfa in good condition; alfalfa is being marketed in Kansas; alfalfa is being marketed in Kansas.

Reed—Much damage by high water; alfalfa is being marketed in Reed; alfalfa is being marketed in Reed.

FROM MRS. THORPE.

Report on the Relief Work of Her Department.

At the station we have been doing whatever work came to us during the flood, connecting our work as closely as possible with the relief committee plans, and have kept in touch with all the relief stations by telephone.

The ladies of the Army and Navy and others of experience have given constant help. We have kept coffee and ready meals for workers as well as for the needy. We have provided clothing and food for the needy. We have provided clothing and food for the needy.

One family, fitted out generously the first day, furnished a room and stove and clothing for the needy. We have provided clothing and food for the needy.

Four barrels clothing from Osage County, 2 barrels clothing from Richardson County, 1 barrel clothing from Junior Epworth League, Burlington, 1 barrel clothing from Mrs. Kennen, Oklahoma's boys clothing from police matrons and King's Daughters, with promise of more from Wichita. Cash donations in all \$23.50. Our work is subject to orders of Chief Goff and relief committee.

MRS. LAURA E. THORPE.
Police Matron.

AN ATTACK ON TRUSTS
Is Made by One of the Leading Newspapers of Mexico.

Mexico City, June 9.—El Imparcial (newspaper) publishes an article today which attracts much attention as depicting the policy of the federal government towards railways, dealing especially with the government's recent purchase of a controlling interest in the Mexican railway in conjunction with its control of the Inter-Oceanic railway, these two lines extending from the Rio Grande to Gulf of Mexico at Vera Cruz, becoming a part of one great unified system.

El Imparcial, declares with the utmost frankness that the trusts are brutal concentrations of capital against the immense legion of the defenseless, otherwise called the general public. It goes on to argue that the Standard Oil company, which it asserts is now the owner of the main central system, has maintained its continued predominance in the United States by the acquisition of the principal railways giving an outlet to the oil producer in petroleum yielding regions, and says this monopoly if extended into Mexico might inflict great injury to Mexico.

Bound to Climb Mt. McKinley.
Seattle, Wash., June 9.—Frederick A. Cook, a scientist of New York, Gilbert A. Dunn, a young geologist of Harvard, and Ralph Shaw, a young biologist graduate of Columbia, forming the Cook expedition on route to Alaska, to make an ascent to the summit of Mount McKinley, the highest peak on the American continent, have arrived here. The party will be taken to Cook's hotel at once.

"My work will yet take a high place in the world," said the author, "but I have already taken it," replied the bookkeeper, "open on the top shelf two years."—Atlanta Constitution.

FOR NEW BRIDGE.

Street Car Bents Used For an Approach.

These Will Carry a Temporary Structure.

NO STREET CAR TRACKS

Mr. Myers Withdraws Proposition to Use Bridge.

Gas and Water Companies to Have Mains on Bridge.

At the council meeting last night, the city railway withdrew its offer to build a line across the bridge, and the county and city entered into an agreement to immediately construct a pile bridge in place of the old north approach.

The pile bridge will be constructed on the bents of the old street railway bridge, and will therefore "jog" out of a straight line. This will leave an open waterway for the construction of a permanent approach, or additional span, for the Melan bridge.

L. B. Myers offered to give the city, free of charge, all the valuable bridge timber left of the city railway bridge. There is almost enough of this to build the bridge. The county contributes two car loads of piles and a lot of salvage from the Kansas river bridges, and agrees to deliver this salvage on the ground.

The city will pay the cost of building the pile structure, and John Rogers, county surveyor, will serve as superintendent of the work, together with City Engineer McCabe.

There were really two separate council meetings last night, and a meeting of the streets and walks committee. All had to do with the flood situation. The first meeting was in regard to the street and walks committee.

Mr. Myers, vice president of the company, had discovered that the county commissioners were prepared to fight the purchase of a controlling interest in the Mexican railway in conjunction with its control of the Inter-Oceanic railway, these two lines extending from the Rio Grande to Gulf of Mexico at Vera Cruz, becoming a part of one great unified system.

El Imparcial, declares with the utmost frankness that the trusts are brutal concentrations of capital against the immense legion of the defenseless, otherwise called the general public. It goes on to argue that the Standard Oil company, which it asserts is now the owner of the main central system, has maintained its continued predominance in the United States by the acquisition of the principal railways giving an outlet to the oil producer in petroleum yielding regions, and says this monopoly if extended into Mexico might inflict great injury to Mexico.

Bound to Climb Mt. McKinley.
Seattle, Wash., June 9.—Frederick A. Cook, a scientist of New York, Gilbert A. Dunn, a young geologist of Harvard, and Ralph Shaw, a young biologist graduate of Columbia, forming the Cook expedition on route to Alaska, to make an ascent to the summit of Mount McKinley, the highest peak on the American continent, have arrived here. The party will be taken to Cook's hotel at once.

"My work will yet take a high place in the world," said the author, "but I have already taken it," replied the bookkeeper, "open on the top shelf two years."—Atlanta Constitution.

Big Gold Strike Near Yuma.
Daining, Tex., June 9.—A special to the News from El Paso says: Authentic reports from private sources received here today tell of a big gold strike made by a Mexican prospector, four miles north of the King of Arizona gold mine, sixty miles from Yuma. The claim is said to be far more promising than the King of Arizona and has created tremendous excitement.

Constancia Gracie Crusaded to Death.
Paris, June 9.—Constancia, the young daughter of Archibald Gracie of New York, was crushed to death in an elevator accident at the Hotel de la Tremblay last night. Mr. Gracie is a relative of President Roosevelt.

Negro Murderer Lynched.
Macon, Ga., June 9.—W. Cope Winston, Jr., whose father was one of the leading members of the Georgia bar, was instantly killed by a negro named Bando.

LOCAL MENTION.
Lane Chapel Colored Methodist church has contributed \$5 to the flood relief fund.

The total subscribed to the flood relief fund by the school children of Topeka is \$400.25.

The Commercial club has an inquiry from Randolph, Illinois, for the family of William Miller, of North Topeka. Leave word at the Commercial club.

The county commissioners will call on the assessors in the district of Topeka in the country to report the families that were left in destitute circumstances by the flood.

Mrs. O'Reilly—To top up the morning yet. A fellow like you is a dangerous neighbor.

Personally Conducted Tourist—I ain't afraid of no heat, but I've been through Chicago—Puck.

TODAY'S MARKET REPORT.
Chicago Livestock Market.
Chicago, June 9.—CATTLE—Receipts today 10,000 head. Market steady. Prime steers, \$10.00; heavy, \$9.50; light, \$9.00; calves, \$8.00; hogs, \$7.00; sheep, \$6.00.

Chicago Wheat Market.
Chicago, June 9.—WHEAT—Receipts today 10,000 bushels. Market steady. Prime hard, \$1.00; heavy, \$0.95; light, \$0.90; soft, \$0.85.

Robbed All Round.
Merchant—Yes, I've lost my entire fortune. Our most trusted employee robbed us of enough to force my company into bankruptcy.

His Line.
The old gentleman was serious. "You should decide now what you want to do," he said. "What line do you think you will take up?"

Sorry She Speaks.
"Mr. Highball," said the landlady, "why are you sitting your coffee so strenuously?"

Not Dangerous.
"Wind is a nice fellow, but he is given to exaggerating."

His Experience.
Publisher—Did the people of Stringtown receive you warmly?

Don't Agent.
Well, I guess you. They made it so for me that I took the first train.

Mr. Knownothing.
"I really hope you will excuse me for saying what I did. I didn't think."

Miss Knowitall.
"Oh, I'm sure you didn't, Mr. Knownothing. It wasn't to be expected of you."

ROCK ISLAND OPEN.

Passenger Trains Now Enter Topeka Depot.

The Rock Island train service is now as extensive as could be expected considering the existing conditions. That route has a good much to offer to its passengers.

The Rock Island has not yet been opened up, but Colorado passengers are now being handled by way of Horton, Kansas, and California. The trains strike the main line at the latter point. It is stated that the Rock Island's tracks between McFarland and Horton and California. The Pacific has not yet made much headway towards repairing that line, although the company is doing its best under the circumstances. It is not thought that trains can be operated over that line for at least a week.

Kansas City line open in about four days. One of the officials made a statement to this effect this morning. They expect to be into Holiday in about two days. Holiday is only about thirteen miles west of Kansas City.

DEATHS AND FUNERALS.
The funeral of Dr. Peter McVicar was held from his residence at Washburn college at 2 p. m. this afternoon.

The funeral of Robert Monteth was held yesterday afternoon from the family residence, 706 Fifth street.

Mr. Monteth was born in Scotland, Perthshire, Scotland, in 1840 and was in his sixty-third year. He came to Topeka in 1871 and has lived in Topeka twenty-four years. He worked for the Santa Fe for sixteen years, but has since been engaged in the plumbing business.

Mr. Monteth is survived by his wife and four children. Robert Monteth, Jr., son of Mrs. Monteth, died at Mexico, Wm. B. Monteth, who was associated with his father in the plumbing business, Mrs. Anna R. Monteth, a teacher in the high school, and Miss Mary Monteth, who teaches at Clay school.

Neil Anderson, 83 years of age, died at Christ hospital this morning.

Explosion on British Warship.
Gibraltar, June 9.—A boiler explosion occurred today on the British cruiser HMS. Hope. An officer and six men were injured.

Chicago Produce Market.
Chicago, Ill., June 9.—BUTTER—Market firm. Creamery, 15¢; factory, 14¢. EGGS—Market steady. 15¢. POULTRY—Market steady. Live turkeys, 12¢; live chickens, 10¢.

New York Stock.
Wall Street, New York, June 9.—STOCKS—Heavy selling orders appeared in the stock market, the advance of 13 points in September to \$115.00, the first time since the war, was continued, that option going to \$115.00 at the opening. August advanced 13 points.

Topeka Market.

PRIME HAY (house), \$1.00; 20 and 25 sizes, \$0.75; 20 and 25 sizes, \$0.50; 20 and 25 sizes, \$0.25; 20 and 25 sizes, \$0.10.

HOBART'S CHLORIDES

THE ODORLESS DISINFECTANT

Use according to the instructions on the bottle. A little extra care just now may prevent much sickness and expense. Make your home perfectly sanitary by sprinkling a little of Hobart's Chlorides in your cellars, sinks and closets; pour a little in the waste pipes and drains. It makes the air sweet and pure. No disease germs can live where this preparation is used. It also prevents Typhoid and Malaria. Don't be negligent, but DISINFECT before it is too late. Disease lurks in every dark corner.

You may obtain Hobart's Chlorides at Hobart's cut-rate drug store, 500 West Tenth street. Price 20¢ per quart bottle.

Your money back if you want it. 500 West Tenth Avenue. Both phones 150.

Cotton Market.
New York, June 9.—COTTON—Opening in the cotton market today was one of the quietest and most exciting of the season. July advanced 1/4¢, August 1/4¢, September 1/4¢, October 1/4¢, November 1/4¢, December 1/4¢. The advance was a continuation of the movement which started yesterday and was attended by further talk of a July corner and reports of crop damage. The Liverpool cables were also very strong. The New Orleans was again strong with July selling up to 11 1/2¢, while August reached 11 1/2¢. The New York market, however, held most of its advance and the undertone was nervous and unsettled.

New Orleans, La., June 9.—COTTON.
The chief feature of the cotton market opening here today was the advance of 13 points in September to \$115.00, the first time since the war, was continued, that option going to \$115.00 at the opening. August advanced 13 points.

Chicago Produce Market.
Chicago, Ill., June 9.—BUTTER—Market firm. Creamery, 15¢; factory, 14¢. EGGS—Market steady. 15¢. POULTRY—Market steady. Live turkeys, 12¢; live chickens, 10¢.

New York Stock.
